

14-15 March
2016
Mira Hong Kong

For the first time, the 2016 World Fashion Design Award Ceremony (WFDA) is held concurrently with the 11th Prime Source Forum, to strengthen the undivided buyer-supplier-relationship.

The WFDA is to get the fashion suppliers' efforts-of-the-years well recognised by the industry and demonstrate their abilities-to-design to PSF's participants. We believe that WFDA will act as a springboard for future business collaboration.

Six (6) awards are available to be presented to winning companies at PSF2016: -

fashionCHIC	fashion in signature design
fashionDECO	fashion in best use of accessories or trimmings
fashionFINE	fashion in best use of materials
fashionLEAN	fashion made with lean processing and at low garment cost
fashionPURE	fashion in best sustainable process or environmentally friendly materials
fashionTECH	fashion in best use of technology

In addition to the above awards, an Ultimate Winner of the Competition will be presented to the company that wins the most awards overall.

Who are judges of the 2016 WFDA? Go to the display area of WFDA in the Forum foyer and find out who they are.

Pocket Bouncer™ Jeans

Pocket Bouncer™ Jeans is made of sustainable and high-performance denim fabric for most occasions. Pocket Bouncer™ Jeans is designed to protect your private and sensitive digital information such as ID cards, credit cards and Smartphone.

Hanbo Enterprises Holdings Ltd.

Hanbo Enterprises Holdings Ltd. (HKEX: 1367) is a combination of large-company capabilities and hands-on expertise with small-company personal service, reliability and responsiveness. We offer apparel product-oriented solutions for supply chain management, general/prime contracting, product consulting, and 'design-produce' all unique tailor needs of each customer.

Your Supply, Our Responsibility!

Moonlight Runner

Luminous is the design element of Moonlight Runner. The fabric stripes are knitted with luminous yarns. In the dark, the stripes illuminate, providing safety for night runners. The detachable LED panel can be used as a scarf creating another wearing style for leisure occasions.

Whatever

With two different sides of the same fabric, Whatever is designed as 1 tee in 4 different looks – front/back and inside/outside, providing convenience to wearers.

Honsin Apparel Sdn. Bhd.

Honsin Apparel Sdn. Bhd., with more than 40 years of experience, specialised in manufacturing synthetic sportswear for internationally renowned brands. Diversified production capabilities and commitment to the craftsmanship contribute to Honsin's long term relationship with customers. Through lean manufacturing, Honsin reduces production lead time and enables the customer's fast response to the market. By the vertical integration in near future, Honsin will provide more value added service to its customers.

Abstract pattern fur jacket

Three natural fur colours, white, black and grey combined in abstract patterns give the fur jacket artistic elegance. This design was made by Ms. Han Dongyang in collaboration with KOPENHAGEN FUR, breaking the traditional perception of fur garments' extravagance.

Striped sleeveless mink fur top

Selected from the 2015 collection of ELLASSAY × KOPENHAGEN FUR, this top in the split and joint mode enables two natural colours, grey and white, to display in a curved line pattern.

Snow White fur dress

Inspired by 'Snow White,' the fairy tale of H.C. Anderson, NE. TIGER made this fur dress with the new technique, 'applique' originated from the Copenhagen International Centre for Creativity.

The dress made with the Velvet-like KOPENHAGEN FUR in natural white and pearl beige presents a very classical and elegant style. Supported by a pannier the dress gives the traditional silhouette a light swinging effect.

Kopenhagen Fur

At the centre of the international fur trade is Kopenhagen Fur — an exclusive, well-established luxury brand as well as the largest fur auction house in the world.

Owned by Danish fur breeders, Kopenhagen Fur is the leading provider of fur material, recognised for its exceptional quality. Decades of experience and the volume of fur skins on offer have led to Kopenhagen Fur's reputation as the only auction house in the world being capable of the fine grading and labeling system that ensures the ultimate in high quality.

Black Chanty Lace Evening Gown

The Black 'Chanty' Lace Evening Gown celebrates the beauty of lace by utilising the minimal cutting. The front and back bodices and the front skirt are connected and cut as one piece in order to preserve the lace edges and inside details. It is fully corseted and lined with silk satin.

Dr. Kristina SHIN The Institute of Textiles and Clothing The Hong Kong Polytechnic University

The Institute of Textiles and Clothing (ITC) of the Hong Kong Polytechnic University is the leading provider of professional fashion and textiles education. ITC is ranked No. 1 in the world on its research performance and citation impact in the fields of textiles and clothing according to Thomson Reuters.

The lace of Black Chanty Lace Evening Gown is sponsored by Chanty, the German lace company with over 50 years of experience in the creation and production of lace (galloon, narrow and allover lace) for the lingerie, hosiery and ladies outerwear industry.

Techpacker's Free Web Platform

Techpacker's Free Web Platform is the 'World's fastest and easiest tech pack tool'. We use smart-card technology that cuts down 70 per cent of time from making techpacks (spec-sheets) and brings the power of communication clearly, maintaining versions, sharing files and working together. No other fashion PDM or PLM can match up with this.

techpacker

Techpacker Ltd.

Techpacker was born out of the need for an affordable and easy to use PLM (Product Lifecycle Management) tool for growing fashion brands to manage their fashion styles with factories and colleagues. Techpacker created a first of its kind standard communication platform to remove communication problems and, are supported by leaders in the fashion industry.

i.Dummy

i.Dummy is the result of research done on anthropometric study and the understanding of human growth from small to bigger sizes. Despite its complexity, it is an extremely user-friendly piece of equipment for the fashion trade and industry. The main components of i.Dummy are the mechatronics systems of actuators and drive system, panel design, skin and cladding design, and the software that runs the body dimensions. The model range of i.Dummy now covers; female top torso, female bottom torso, female full body, female mechanical adjustable arms, male top torso, male bottom torso, male full body, male mechanical adjustable arms. All come in standard models or customised models.

WFDA Finalists

winswin

Winswin Ltd.

Winswin, as an energetic technology company, will keep moving forward to develop a series of new generation robotic mannequins in the future. We believe that i.Dummy will create a new fitting trend in the world as it is such a user-friendly, economical, space saving and sustainable technology product for the fashion industry.

Wolf Lingerie Ltd.

Wolf Lingerie, founded in Alsace, France in 1947, is an independent company and one of the pioneering companies of the women's liberation movement in France. From this era, the company has retained the strongest values of professionalism, perseverance, integrity and reliability. Wolf Lingerie enables its consistency and growth on a worldwide scale. The success has been achieved through regular, sustained investments, a clever brand-development strategy, constant adaptation to the domestic and international markets and the creation of its own manufacturing facilities in Asia.

Infinite Stars by Kate Ye

I love the moonlight, but I also love stars. Right from my childhood, deep blue sky with pearls like stars attracted me. This memory reverberates and evokes my emotions.

Children ask me, why there are so many disorganised stars in the sky. In fact, they have their own orbit and direction. When some of the stars get close to each other, they overcome a lot of gravity in their route by forming a new pattern and creating a new world. How wonderful!
